## Education

### BS Computer science

GCU Faisalabad - 06/2012 to 06/20216

- Making small games in JavaScript.
- Spend some time in studied programming books.
- Football is favorite game during study.

## Experience

RatedSolution - 06/2020 To Current

D.G.Khan, Pakistan

- Worked in a 10-person team of Local and American devs and designers.
- Pulled from PHP, SQL, JavaScript and other back-end library knowledge to bolster programming resources.
- Holding weekly meetings with clients to discuss their needs, aims and development progress.
- Developed, Designed, and Implemented Database structure, Storage structure, and Web service required for File/Content Management System.
- Modified existing code written in programming languages such as Laravel and JQuery.

E-VisionSol - 06/2018 to 05/2019

Multan, Pakistan

- Started as the junior web developer
- Frequently Scrum master of a 6 team of devs and designers.
- Developed many websites for difference types of business.
- Learned GitHub and project deployment.
- Manage different website.
- Built with new technology and ideas.

## Strengths

- **Expression of Ideas:**  
As seen from my experience of talking to clients and giving them updates on their demands.
- **Collaboration:**  
Sharing new technology terms and clean code practicing. Collaborating with team members via Git and VS Code(live share).
- **Attention to detail:**  
Focus on delivering work on my time. Work with my senior and junior team members and learn from them.
- **Time management:**  
Able to work on 2 to 3 projects at once while remaining calm and delivering quality end products.
